

From Brooks LIFE SCIENCES

## Sample Management System

#### **FreezerPro®**

FreezerPro® is an intuitive, fast, reliable and secure solution which enables users to know precisely where a laboratory sample is located even before opening the freezer door.

FreezerPro is a biological sample management inventory system with over 250 installations globally. It provides laboratories with a secure web based application for managing samples.

Organisations looking for a commercial off the shelf solution for freezer inventory management, with no expensive setup or implementation costs, as well as central biobanks with millions of records, have relied on FreezerPro® for the secure management of samples and sample information. The FreezerPro® Cloud uses state-of-the-art, cross-region servers and storage technologies managed directly by Brooks Life Science Systems. Customers are able to access FreezerPro Cloud via a web browser from anywhere in the world, at any time.

### Compatibilty

In addition to being compatible with PC/MAC, Tablet, Smartphone and web-based operation, FreezerPro is also compatible with many barcoding and RFID hardware scanners, readers and printers.

#### Compliance

- cGLP/cGMP (Good Laboratory Practice and Good Manufacturing Practice)
- Section 508 Accessibility Guidelines
- HIPAA Patient Safety and Quality Improvement Act of 2005 (Patient Safety Act)

# **Features**

Truly web based - install once, access from anywhere  Complete sample management  O O O O O O O O O O O O O O O O O O

Available workflow module
Transport Transport
Available RFID kit module
GLP mode for strict operations
Support for custom vials identifiers
SSL data encryption
HIPAA compliance
User authentication via active directory domain services (LDAP)
Customer postrgreSQL, MYSQL, Microsoft SQL, Oracle Database support
Application programming interface (API)
Hyper-V support on Microsoft Windows Server
Advanced workflow management
Shipping module included
Email tied communications and alerts
Clinical data management
Advanced reporting suite
Configurable charting and graphing
